# The town's 25% design is right for Concord

- It reflects the interests and needs of constituents throughout the town.
- It incorporates many compromises that address concerns raised.

Submitting the 25% design is an early stage in the process of creating a rail trail in Concord. The town retains control of the project.

- The design will be further refined
- The design can be modified
- Changes in circumstances can be incorporated (such as the MBTA crossing)

The town's 25% design is ready to submit to Mass Highway for its review.  
The Friends strongly urge your support for Article 27.
